

RETREAT CURATION

*led by you, curated

Jenkruz

Lead and deliver your dream retreat

As a studio owner or instructor, you already know the power of connection beyond the studio walls. Retreats deepen community, elevate brand loyalty and create powerful additional revenue streams.

But behind every beautiful retreat is:

- Months of research and supplier coordination
- Complex pricing and profit modelling
- Contract negotiation and risk management
- Marketing strategy and sales pressure
- Detailed scheduling and guest journey design
- Time consuming guest communication
- On-site troubleshooting and leadership

The bandwidth required is significant — and when done without structure, retreats can quickly become overwhelming, underpriced, or operationally stressful.

That's where I come in.

You choose the destination.
You choose the vision.
I design the framework and
ensure it works — commercially
and experientially.
